

TRANSPORTATION INFO

Parents and Guardians are able to access their child(ren)'s transportation information in mid August of each year, by using the **Automated Telephone System (IVR)**. This is a 24-hr service which will provide you with the bus number, pick up and drop off location and the times.

In order to access your child's transportation information, you will require your child's 9 digit OEN number or their student number and your child's date of birth. Both numbers (OEN or student number) can be provided to you by your school or the number will be on your child's last report card.

Sign in to our website to view Transportation Data for your Student at any time using the same credentials needed for our IVR and be sure to subscribe to our mailing list to receive notifications of bus cancellations right to your phone, tablet, or desktop computer. Add your email address on the following page, and unsubscribe at any time after.

By calling the office phone numbers there will be a staff member of DSTS that will be able to assist you and direct you to the correct Route Coordinator for your school area. DSTS staff are available throughout the school year 7:30 a.m. to 4:45 p.m.

INCLEMENT WEATHER

You are responsible for deciding if it is safe for your child to go to the bus stop or school during inclement weather. Please ensure that students are dressed appropriately for the conditions, as the bus may experience further delays.

In the event of inclement weather, the bus may be delayed or cancelled. If the bus starts its route after a delay, afternoon transportation runs as normal. If the bus does not start the run in the morning, no afternoon transportation is provided.

In the event of an unexpected transportation emergency, poor road conditions or extreme cold weather delays, it is important that parents or guardians have a contingency plan in place. Unexpected emergencies and bus delays of ten minutes or more will be posted on the DSTS website. Cancellations due to weather are posted on the website: **www.dsts.on.ca**

Durham Student Transportation Services

SCHOOL BUS INFORMATION

A USER GUIDE FOR PARENTS

DURHAM STUDENT TRANSPORTATION SERVICES is a transportation consortium between Durham District School Board and Durham Catholic District School Board.

DSTS is responsible for the coordination and delivery of school bus transportation throughout Durham Region. We work cooperatively between the Boards, parents, schools, and bus companies to deliver safe, effective and efficient student transportation.

As a parent or guardian of a student on a school bus, you play a key role. This brochure is designed to provide the necessary information to your family that will assist in providing the best bussing experience for your child(ren).

TRANSPORTATION ELIGIBILITY

Eligibility is based on your child's primary residential address as registered with the school. Only one primary address is permitted. In addition, eligibility is based on distance from home to school. For elementary students, transportation is provided to students who live above 1.6 km from their designated school.

Alternate addresses may be used if your child is eligible for transportation at the primary residence and the alternate address is used every day consistently and is within the transportation boundary for the school.

Student Transportation Services does not offer custom transportation, such as service to different addresses on different days, short term changes or transportation on alternate days.

STUDENT INFORMATION

Change of Address: DSTS arranges transportation based on information provided by the School Board, who receives the information from the school. To change your address, please contact your school.

Once we receive the information from the School Board, it normally takes three business days before transportation arrangements can be confirmed. During September, it may take up to five business days for changes. DSTS will communicate the new arrangements with the school and the school will notify the parent or guardian.

Release of Information: For safety reasons, DSTS will only discuss transportation arrangements with the parent or guardian listed on the record provided by the school. Please keep in mind that not all daycare facilities receive door to door stops. Please check with your daycare provider to ensure that someone is accompanying your child(ren) to and from the designated bus stop.

Bus Stop Locations: DSTS does not provide "door to door" transportation. DSTS is responsible for determining bus stop locations. These locations are based on road, traffic, safety factors for the students, bus driver and motorists.

Community Stop Locations: Community stop locations are located in areas accessible for a number of students in a neighbourhood. Students are assigned to the closest stop location based on primary address and must use this assigned bus stop location. Walk distances to stops are usually under 600 meters.

PARENT / GUARDIAN RESPONSIBILITIES

Parents or guardians are responsible for the student's safety from home and until the student boards the bus and disembarking the bus to home. The Board and bus company are responsible for the safety of the student on board the vehicle.

Parents are encouraged to have elementary children accompanied to and met at the bus stop after school.

Student Conduct on the Vehicle: Talk to your student about safe, appropriate behavior when on board the school bus. Please review "**School Bus Information - A user guide for students**" with your child(ren) and stress the importance of accountability for his or her actions.

Student Information: You are responsible for keeping student information, including address, up to date with the school. DSTS arranges transportation service exclusively on information provided by the Board by way of the school.
